Instructions and Dosage

Spray over the fresh litter and over the ground for one metre around the entrance to the barn, hen house. A thoroughly cleaned portable backpack pressure spray with integrated hand spray is best used for this. The application rate should be 50ml per sq mtr. If difficulty is experienced getting a fine mist then dilute with water (one part Spray+ to one part water) and then spray at 100ml per square metre. Initially we recommend for first application neat or 1:9 then application can be applied up to up to rate of 1:100. when applying to new bedding daily. Recommend Daily 1:100, Weekly 1:50, Monthly 1:9. Note: Cap=10ml
